

RAHUL BARIKI

Generative AI & AI Automation Developer

Nandyal, Andhra Pradesh | +91 6281769623 | rahulbariki24@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Computer Science undergraduate (AI & ML) specializing in generative AI application development and workflow automation. Hands-on experience building full-stack AI products that integrate LLM APIs, AI agents, and automated pipelines (n8n), backed by certifications in Generative AI and Prompt Engineering. Recognized at national-level hackathons for applied generative AI work.

EDUCATION

B.Tech, Computer Science and Engineering – AI & Machine Learning 2023 – 2027
Santhiram Engineering College, Nandyal | CGPA: 8.46

SKILL SUMMARY

Knowledge: Generative AI, Large Language Models (LLMs), AI Agents, Prompt Engineering, Natural Language Processing (NLP), AI Automation, UI/UX Design, Full-Stack Development
Languages: Python, SQL, JavaScript, HTML5, CSS3
Frameworks: React, FastAPI, Node.js, REST APIs, PostgreSQL,
Tools: Git, GitHub, Figma, OpenAI API, Supabase, PostgreSQL
Platforms: Vercel, Netlify, AWS, Docker, CI/CD Pipelines
Generative AI & Automation: Generative AI, LLM Integration, AI Agents, Prompt Engineering, Natural Language Processing, Automation Systems, n8n

INTERNSHIP

Generative AI & n8n Automations Intern May-2026
CodeTantra

- Worked on generative AI applications and workflow automation using n8n, building automated pipelines connecting APIs and AI models.

PROJECTS

ShowLink

- Designed and developed a web platform listing colleges with detailed brochures, enabling students to search and compare college information in one place.

BrandNova – AI Brand Automation Platform

- Built an AI-powered branding suite that generates logos, brand names, and marketing content for startups.
- Integrated LLM APIs and generative AI models to automate end-to-end brand identity creation, reducing manual design turnaround.

CampusPulse

- Built a smart campus event management platform to centralize event discovery, addressing missed events caused by information scattered across WhatsApp, notice boards, email, and social media.
- Designed a PostgreSQL-backed data model to support real-time event listings across the college community.

CERTIFICATIONS

- AWS Academy Graduate — AWS Academy Data Engineering
- Career Essentials in Generative AI — LinkedIn Learning (in collaboration with Microsoft)
- AI Foundations — HP LIFE
- Fundamentals of Cybersecurity (EDU-102) — Zscaler Academy
- Python Basics & Foundation — CodeTantra

ACHIEVEMENTS

1st Runner-Up — GenAI Forge Hackathon 2026 Feb 11–14, 2026
SmartBridge & NASSCOM FutureSkills Prime
2nd Position — Prompt Engineering, DEFEND-X RIPPLE-2K26 Mar 9–10, 2026
National Level Student Technical Symposium, RGM CET (Autonomous)

LEADERSHIP & AFFILIATIONS

Secretary, IEEE Student Branch — Santhiram Engineering College, E25 Feb 2025 – Feb 2027
IEEE Student Member — IEEE Education Society, IEEE Sensors Council, IEEE CRFID 2025 – Present
